BLM Defies Desert; Plans to Continue Its Program Until Congress Orders Change

Congressional hearings just concluded in San Bernardino and Los Angeles by the House Committee on Interior and Insular Affairs, under the chairmanship of Rep. Clair Engle, to examine the Bureau of Land Management small tract program attracted the attention of a large number of people in Southern California, and now that the hearings are over these people want to know what the Bureau's policies are and what the program of making small tracts of Government land available to the public is to be. Here is the BLM statement:

"We are receiving many inquiries," E. J. Palmer, Assistant to State Supervisor for the Bureau in California, said today, "but until the Committee has had time to study and analyze the testimony and statements and the Director of the Bureau has conferred with the Committee on possible changes, the program will continue, in most respects, as it has the past year."

(EDITOR'S NOTE: In the face of opposition to past policies, we deem this conclusion unwise, unjust, and defiant, on the part of the B.L.M. Stubborn is the kindest word we can think of.)

The BLM chief for Southern California listed the following items as most important in the small tract program: A major effort will be devoted to classifiyng land for lease and sale and direct sale to applicants who have previously filed an application for a small tract. The Los Angeles office of the BLM will concentrate on the old applications in a renewed effort to wipe out the backlog. Unprocessed small tract applications are pending on desert and semi-desert lands in San Bernardino, Kern, Los Angeles, San Diego, Riverside, Orange, and Imperial Counties. The BLM administers more than 12,000,000 acres of public domain land, which is mostly desert, in Southern California. The general policy of making available tracts of from one

Desert Disser-Tations

by Harry D. Schultz

TEASER: Big deal. (?) Or social? We like to worry people. The C. H. Jacobs took the Schultzes and the Woody Wilsons out to dinner the other night at the TOM TOM. Was it a secret STAR staff meeting? Is there something big brewing like Falstaff? Or were we all just hungry? Time, tide and stardust will tell.

HERE'S another idea to make a dream town out of the valley, at almost no cost. Each year on Arbor Day, every citizen, renter or owner, homeowner or level lot owner, plants an oleander. Think how lush this area would look after just three years!

BELIEVE it was ROY ROUSCH who said you can always recognize Ollie and me driving down the highway, cause our license plate reads AWN, which anybody knows could only stand for A WONDERFUL NEWSPAPER.

WE got cheated. At the last Lions Ladies Night we won 8 "desert martinis" at Burnt Mt. Bar (as well as 5 gallons of gas at the Hi-Way Garage) . . . and now the B.M.B. is closing shop.

BLACK JACK, the office typing cat, says:

"A lot of people might spend less time watching TV if only they could remember what it was they used to do."

OUR parents have had an education. They've had a course in "newspapering as performed by the Schultzes." My mother spent a weekend with us early this month and Ollie's mother and dad were here the last three days. No longer will they complain that we "never come to visit" them. They have discovered why and what occupies their children 19½ hours a day. In fact Kay & Harry will probably never come again. We were faced with a minor time emergency in getting the Hi-Desert Star to bed so we pressed them into service on a midnight shift. After a few hours dad threatened to picket the place in the morning. They howled and pawed the ground and complained and we had a wonderful time. They'll probably never return. But neither will we get any letters asking us to run over for a visit. When my mother was here we got her busy proof reading. Haven't heard from her since she left.

NOT to be outdone by Pappy Stingle, who sent Ollie some roses from his Morongo Valley desert rose garden, D.H.S. realtor August Forget sent a box of candy. As long as I got to smell the flowers and eat some of the candy I guess I shouldn't kick if strange men send my wife gifts. (?)

FAVORITE quote (if you watch Pepsodent TV commercials) of the week: when we delivered last week's (white paper) STAR to the Coffee Shop newsstand, a localite picked it up, saw us carrying out a left-over gold colored paper copy, said: "I wonder where the yellow went."

UND ZOOE . . . it's 4 a.m. and time to say so long.

Mayor Gregory Visits Republican Club Here

Mayor Gregory with Mrs. Gregory of San Bernardino were entertained on Oct. 18th by members of the West Morongo Basin Republican Assembly with a tour of Yucca Valley and Pioneertown Rose Cresent, vice president and acting hostess with Irene Fox secretary, and other members of this organization, also Mr. and Mrs. Ben Coleman of Twentynine Palms were on hand to welcom the arrival of Mayor and Mrs Gregory at Callahan's of Yucca Valley, then proceeded with the tour.

Mayor Gregory expressed surprise at the activity and rapid growth of this area. Morongo Valley and Joshua Tree and its outlying area had been visited earlier in the day. Mayor Gregory is the Republican candidate of San Bernardino County for State Senate in the forthcoming special election of Nov. 26.

A dinner party was held in honor of the Mayor at the Golden Stallion of Pioneertown that evening. Members and guests of the West Morongo Basin Republican Assembly who attended felt personally acquainted with the Mayors' qualifications for public office.

ILLNESS CLOSES OFFICE

The Thornton Insurance office will be closed temporarily due to the illness of Joyce Bergstrom.

HONORED GUEST—in Yucca Valley last Thursday was Congressman Harry R. Sheppard pictured above with local dignitaries. Shown are: Silas Stanley, Luther Colvin, Roy Rousch, Mort and Sam Rosenbaum, Harry Sheppard, Clyde Downing and William C. Helvey.

FULL HOUSE GREETS HARRY SHEPPARD AT TESTIMONIAL DINNER IN YUCCA

By CHESTER R. BUNKER
Director Public Relations
Desert Improvement Association

The Testimonial Dinner, given in honor of Congressman Harry Sheppard, at Callahan's in Yucca Valley last Thursday night, was a big success.

A capacity house of 67 diners, including officials of D.I.A., and heads of the commercial chambers of Joshua Tree, Yucca Valley and Morongo, by attendance and applause showed their appreciation of our veteran Congressman, and also indicated approval of the work being done by the D.I.A. who sponsored the dinner.

President Helvey announced that the work being undertaken by the D.I.A. is just getting underway. D.I.A. with a membership of

Chas. Watkins Announces Corporation Formation

Announcement is made in this issue of the STAR of the Monument Realty Co. Inc., successor to Charles S. Watkins, realtor, pioneer businessman of Yucca Valley and the hi-desert. Watkins, in announcing the formation of the new corporation states that it has been done in line with the continual expansion of facilities during the past few years of his office, to better service clients in every possible way.

The new corporation is set up to handle every type of real estate problem, from the selling of small lots, building of homes and like services, to the development of large subdivisions. A complete staff of experienced personnel will be available including architectural and engineering service. Additional announcements will be forthcoming from time to time in the columns of the STAR, explaining in detail the various departments of Monument Realty Co., Inc.

Chas. and Joan Wakins first came to the hi-desert in the fall of 1946 to make arrangements for the establishment of an insurance business in 29 Palms. From the first, they became active in community affairs, always with the interest of the area in mind. Watkins has held many offices in civic and service organizations, among which were president of the Baseline Highway Association, of which he was one of the organizers, and vice president of the Associated Chamber of Commerce

nearly 1200 is determined to carry on its fight for orderly land disposal of the public domain, and special papers are now in preparation by Pres. Helvey, and also by General Counsel Clyde C. Downing to be furnished to the Engle Committee when it convenes in Washington in mid-November.

From press releases being sent out by Ernest J. Palmer, official in charge of Southern California government land disposal, it looks as if the Los Angeles land office is equally determined to carry on their direct-sale plan, regardless of the opposition of D.I.A. and the commercial bodies and realty boards of the desert areas.

Promotional headquarters of D.I.A. activities, which were moved to San Bernardino at the time the Congressional hearings by the Engle Committee were being held in San Bernardino and Los Angeles, have been moved back to Yucca Valley to the association's original location, at 56114 29 Palms Hiway.

PIONEERTOWN

By HONEY FELLERS

By HONEY FELLERS

The STEINERS, KRIS and KEN, were up from L.A. this weekend with the president of their corral, NICK RAVEGLIA, and other members of their Equestrian Trails group completing arrangements and plans for the "HOSSEMEN'S PLAY DAY," to be held here Nov. 9-10-11. Pioneertown lovers had better circle that date, right now!

Those nice CAVES, JACK and AGNES, were busy painting on their place, along with entertaining their house-guests the also very nice McCLINTOCKS, CHARLES and GLADYS, whom, I believe had made up their minds to become one of us,—or two!

Mrs. ROSE JOHNSON of the Meat Ball Corral, just returned from Harve de Grace, Maryland where she had attended the death and burial of her father. We extend our sympathy to Mrs. Johnson.

GOLDEN STALLION was the scene of a fine dinner party and meeting on last Friday night. The event was in honor of the Mayor of San Bernardino, Ray Gregory, who gave a good talk on subjects of vital importance to all Californians,—the rapidly increasing population, the water problem, and the economy of the state and nation. The dinner was well attended—the tables were lovely in autumn flowers,—and the food, of course, good as usual. IRENE FOX of Rim Rock had worked very hard to make this event a success, which it most certainly was.

KEN SMITH, old-timer real estate salesman visited with his friends, — and spent quite some time reminiscing of the bygone days of good old '47 and '48. We always like to see our old friends.

MORONGO VALLEY MESSENGER

THURSDAY, OCTOBER 24, 1957 —GATEWAY TO THE HI-DESERT— Vol. 1. No. 14

Forwhatitsworth

By THE PUTMANS

We met, for the first time, a very wonderful young couple, the Whalens from Lakewood, who have a small cottage in Section 22, ideal for weekend relaxation. The Whalens are easy to get acquainted with and are in favor of promoting the Valley, especially something to stimulate recreation for the children, as they have two youngsters of their own.

The Foxes and the Polleys, also of Section 22, were up over the weekend. The nicest people you ever want to meet — interesting and genuine people. The Polleys have a home like nobody else has in Morongo Valley. The outside walls of their home are of porcelain—so very unusual and a real show place.

Mr. and Mrs. Michlejohn (Andy and Myrtle) from Beaumont were in the Valley just recently looking for property as they want a permanent home here in M.V. Mrs. Michlejohn, in her younger days, was a popular singing and dancing star and she is a darling perso with a winning smile and a twinkle in her eye that you can't resist. The Michlejohns are very good friends of the Guy La Gioias from Van Nuys who have property in Section 22 on the 29 Palms Hiway. Both of these families were at the Cactus Day celebration meeting people left and right so you perhaps have already met them.

I WONDER?

By I FEW SNOOPS

I WONDER if now is not a good time for every one in this M.V. to get together and build MORONGO VALLEY?

I WONDER if you won't agree that the "Property Owners" should have their own organization?

I WONDER if the people of M.V. have a sense of humor? (Now don't take this seriously.)

I WONDER if M.V. C. of C. should furnish a larger water trailer for 5 acre tract owners?

I WONDER who will be the next chairman of the Covington Park Board of Directors?

I WONDER when people in M.V. will start building instead of tearing down character?

I WONDER why people of M.V. don't support the idea of a business men's C. of C.?

I WONDER who's kissing her now?

Junior Chamber Adopts By-Laws

By-laws were adopted this week by the newly organized Morongo Valley Junior Chamber of Commerce.

The meeting was held at the home of the group's vice president, John Kobaly of Hess Blvd., by the president, Bill Harper.

The organization formally received its charter from the senior Morongo Valley Chamber of Commerce. The charter members will embark immediately on a campaign to enlist all young men and women for membership.

Harper explained that membership is open to all men and women between 21 and 40 interested in community service.

He urged those interested to contact him, in care of the Pacific Water Co. in Morongo Valley.

It was pointed out that new members will help select the organization's projects in youth work, community service and entertainment.

After formal adoption of the bi-laws the group turned its attention to the election of officers, electing Bill Harper as president, John Kobaly, vice president; Janette Harper, secretary-treasurer, and Joe Scott as publicity director.

MORONGO NOTES

By CARLETTE

Morongo Valley community is still bustling with new projects, petitions, and organizations of all kinds. At last we can say that Morongo Valley has new life with many new people, both residential and commercial, doing their best to get acquainted with each other and help in any way possible to promote activities in this area. Many humorous situations arise, some embarrassing, but all taken in the right spirit. That shows good community spirit and such is necessary in a small localized area like Morongo Valley.

Property Owners petition is well into its second week with several hundred names on the sheets. It shows intense interest in the much needed organization for unity of purpose and betterment of land holdings. A date will be set for the early part of November at which all interested can meet and form the structure of the proposed association.

HALLOWEEN PARTY AT COVINGTON PARK, Oct. 26th, Saturday night, that is! Come in costume,—buy your HOT-DOG SET UP for the bonfire cook-out,—and even have a taffy-pull with your best enemy. Dancing, contests and other Halloween stunts will keep the fun going. Dress warmly and enjoy an old-fashioned Halloween party for everyone.

The new Junior Chamber of Commerce started to show good intentions soon after organization. The playground at Covington Park shows evidence of their efforts, for Bill Harper, John Kobaly and Joe Scott hauled dirt, leveled the area and relocated the play equipment. Wonderful what young shoulders can do in a short time, working together.

When the nanny-goat starts growing a winter coat in August, when the geese start flying south in early September, when the harvest moon is cold looking—look for an early fall and winter. Must be, for the San Bernardino Mts. had a covering of snow this morning, Oct. 21. Big puffy white and grey clouds are floating over the valley and portend a wet season in store for the desert area. What do the Indians say?

FALL FASHION SHOW OPENS Y.V. WOMAN'S CLUB SEASON

The Silver Tea and Style Show on Oct. 26 marks the beginning of another active club year for the Yucca Valley Woman's Club. The program chairman, Mrs. Jessie Marshall has worked hard to obtain consistently worth-while attractions for the ensuing year.

A showing of sand paintings by women artists of Desert Hot Springs will be featured at the November meeting.

The December meeting will take on an holiday note with a smorgasbord and Christmas program of music. This event will be open to the public.

The January lecture engagement of Dr. Alonzo Baker is to be of special note. One of California's most popular lecturers, Dr. Baker has augmented his own extensive knowledge of world affairs by many global study tours.

Tickets will be available to those of the Yucca Valley citizenry interested in hearing Dr. Baker speak on world affairs as his topic.

In February, the club will present a program, patriotic in character, with a featured soloist Miss Jane Kaye Singleton and Mr. Caldwell, baritone.

A staunch friend of the club, an interesting speaker and entertainer is the beloved Maymie Krythe who is to appear on the March program. She is a world traveler, a trained observer of the human element in the folks she encounters in her travels, and tells about them in an interesting fashion. March will be Mrs. Kryth's fourth appearance before the Yucca Valley Woman's Club.

April has been set aside for an anticipated style show and luncheon to be sponsored jointly by Hi-Desert Fashions and the Woman's Club.

The May meeting will see the close of the active club year, with its annual installation of new officers preceded by a luncheon and to be followed by a musical program.

Mrs. Marshall believes that through better programs of a diversified nature, lies the promise of an increasing membership for the Yucca Valley Woman's Club, now in its eighth year. It has become a fast-growing organization and a substantial element of Yucca Valley's social and cultural life

LET'S LIVE AN ABUNDANT LIFE

By GERALDINE A. HARRELL,

NOURISHMENT — The Building Material supplying Proteins, Carbohydrates, Fats, Water (fluids), Minerals, and Vitamins.

PROPER COMBINATIONS — mean much toward good digestion and assimilation. Gas is formed by combining Proteins and Carbohydrates; Fruit Acids and Carbohydrates most often cause "sour stomach" or 'heartburn." Evidence of these wrong combinations is often experienced before one has left the table (burping or belching).

EXERCISE—either PASSIVE or ACTIVE, or both, depends upon tivity produces the generating of acids in the body the same as too many acid-forming foods. When this is evident in the body, it is more desirable to engage in a PASSIVE TYPE EXERCISE. VIBRATION is one of the best ways to relax muscular and nervous tensions and to promote the alkalinizing processes in the body without physical effort.

FLUIDS—can be taken either in pure spring water (without the addition of chlorine or flourides) or in fresh-run vegetable and/or fruit juices. No added sugar or preservatives are desirable as Nature's own naturally grown products are healthful and best.

FRESH AIR—in abundance. It's FREE! Pure air should be breathed in as if smelling your favorite flower — deeply inhaled through the nose, and exhaled through the open mouth, relaxing all throat muscles in so doing. Repeating five times, and repeated at intervals throughout the day gives added circulation of blood, purifying of lungs and invigoration of entire system.

SLEEP—nothing takes its place. Most individuals need 7 or 8 hours of unbroken sleep to maintain best conditon. Rare ones the type of individual. Over-act- need shorter hours and more frequent. Even more rare cases seemingly thrive on one, two or three hours at intervals. It is during sleep that the body is supposedly at complete conscious rest and the outward activities of the body and mind are stilled. RELAXATION induces good sleep.

ELIMINATION—a daily necessity. Many a bowel surgery could be avoided if bowel elimination were attended at least once (and preferably twice) daily. When meals are eaten, wastes exist and are absorbed by the blood-stream as long as they remain in the bowel and colon. Let's keep a CLEAN HOUSE and prolong life and good health!

POSTURE—a straight, upright

Who Pays For Advertising?

NOT THE NEWSPAPER READER, because he saves both time and money by shopping the wide selection of honest values offered through the advertising columns.

NOT THE ADVERTISER, because advertising always returns profit when it is used correctly and consistently.

Every line of advertising in this newspaper is paid for by the FELLOW WHO DOESN'T ADVERTISE! The business which the non-advertiser loses pays the cost of advertising and ALSO returns a nice profit to the dealer who DOES ADVERTISE!

The merchant who does not advertise IS THE MAN WHO PAYS for advertising. He pays for it in the volume of business he loses . . . in the number of customers who go elsewhere.

Good advertising does not cost. GOOD ADVERTISING PAYS! It brings back the original investment and profit dollars, too. Almost every store wants more busines than it is getting. Hoping for more business is not as effective as inviting more busness.

YOUR COMMUNITY NEWSPAPER

☆ Hi-Desert Star ☆

THE EDITOR LETTERS TO

Editor, Hi-Desert Star:

Recently the Bureau of Land Management arbitrarily discontinued granting land by patent and the Government is going into the business of selling Government land. Under the auspices of the Desert Improvement Association and the Chambers of Commerce of Yucca Valley, Morongo Valley and Joshua Tree, a testimonial dinner was held at Callahan's on October 17th, at which the principal speaker was Congressman Harry Sheppard for this district. He stated that a moratorium was given by the Bureau of Land Management and an investigation is being made and a hearing will be held in January. He stated he will do a job for us and that he will have conferences with the Committee. During the question and answer period the question was asked him what is the cure for the rising cost of living and he answered the only way is to bring controls back. (Is this according to the Constitution?)

It was brought out that more than 60% of applicants for small tracts have permanent homes in counties other than San Bernardino, and 75% of the members of the Desert Improvemet Asssociation have addresses in counties other than San Bernardino. He stated he has talked with three other Congressmen and they are favorable. He stated that all tract owners should write to their Congressman. The question of roads was discussed and he said that it was first necessary to get the approval of either county, state or Federal Government for any road. He was also asked to give his opinion on the missile situation and the Little Rock trouble. He said the satellite has very little military bearing, only for future use, and that the United States contemplates putting a missile in the air in January. He stated Secretary of Defense Wilson did a disservice to America in slowing down missile production. He also stated you can't buy friendship abroad.

In discussing the Little Rock situation he quoted "Equal justice **under law.**" (Emphasis ours.) He stated you can't draw distinct lines of color and be honest. He followed the general line of Congressmen and the Government in disregarding states rights and was very uncomplimentary to Gov. Faubus. Our Government and Congressmen are getting away from the Constitution which guarantees the states the right to govern themselves. Congressmen who are supposed to represent the people are favoring other races who had nothing to do with founding our Government and writing our Constitution. This High Desert community is composed of people with the pioneer spirit who want a little piece of ground to themselves and who want to run their community without interference from the Federal Government. If we don't want negroes for next door neighbors that is our right and privilege and the Federal Government should not interfere.

Elvira Busson.

Let's Live

(Continued from Page 3)

posture is necessary to Good Health and an Asset to Beauty. No pretty figure or face can outshine the posture of a perfect body. Nor can a perfect health condition exist within a slumping body. Lack of vitality is responsible for most slumping figures. GET SOME VITALITY into your system and FEEL the difference.

Positive proof of ability to restore energy and vitality has been a true-life experience during my nursing of an eighty-six-year-old woman who was in a death-coma when I was called upon to "keep her clean and comfortable in her dying days." It had been and still is my theory that "as long as there is life there's hope." By following my Inner Guidance and doing what I was led to do, the woman was walking all over her little home in five and a half days' time and was making her beds and washing dishes before I arrived on duty mornings within a a day and a half short of two weeks.

She lived over two years and would have lived longer had the family supplied her with her requested Vibrator Bed. But they failed to supply her with it, and poor circulation again caused her downfall and death.

So, you see what WE, who are still up and about can do if we TRY!

YUCCA NOTES

By DOROTHY McGRAW

● **The curve at Hardesty's Mar**ket snarled two more "rumpled fender" victims. The game was played between Mr. C. B. Durden of Yucca Valley and T/Sgt. H. L. Cagle of the 29 Palms Marine Base.

● **Saturday I stopped at the** "Busiest Corner in Town" and partook of libation and sustenance from two of the nicest girls in town celebrating open house for Muriel Perrin's new business "Stuff an Things," and Ethel Stine's new office featuring insurance and brokerage service. While in Ethel's place I learned where I could buy a city lot, or a Xmas present for the "man who has everything." In Muriel's place, hubby Paul was the perfect host seeing that all guests had refreshments while she was busy showing and selling much of her "Stuff an Things." Congratulations and the best of luck to you both.

● **Friday, I found Bing Crosby** singing happy birthday to Leo Higgins of the Whirla Whip. (By record that is.) Happy birthday, Leo!

● **An Adult Education class in** Spanish is being formed in Yucca Valley. All interested parties please sign up at Ethel Stine's office.

● **Mrs. Sam Gilman and daugh**ter, Mrs. Gordon Morley and son Johnnie of Yorba Linda was in town for her health and to visit friends. The Gilmans own an acre of land in west Morongo and are anxious to build a house so they can stay and enjoy the climate.

● **Mr. Chester R. Bunker, Direc**tor of Public Relations for the Desert Improvement Association, has moved back to Yucca Valley You can reach him at his office on 29 Palms Hiway and Yucca Trail.

● **Have you noticed this calm,** cool, peaceful and serene look on my countenance lately? It's all due to friend hubby being away deer hunting. I think I enjoy his vacations more than he does. It's funny though, how glad I am to see him after seven or eight days. Deer, dear or not?

● **On Monday evening 26 mem**bers of the "Dirt Diggers Garden Club" held their first fall meeting at the home of the Raleigh Hudsons, on Hopi Trail. The November meeting will be at the Brownell home the second Monday.

● **Mr. and Mrs. Eugene Kohm**escher of Evansville, Indiana spent the weekend with her uncle, R. O. Hudson, who enjoyed meeting the three children and visiting about the Hoosier State and comparing the wonderful Hi-Desert with the East.

MORE ABOUT TV

By JOAN WILSON

Mr. R. N. Groom, of Yucca Valley Community TV Cable, has brought one load of poles from Long Beach and has started work on the TV system. Mr. Groom is moving into Ethel Stine's old office on 29 Palms Hiway and in a short time he will have television ready to be viewed at his office.

The measure of choosing well, is, whether a man likes and finds good in what he has chosen.—Lamb

Your Name In The Paper

How valuable is local newspaper advertising to local business people? Here's what the American Bankers magazine, a publication which represents a traditionally hard-headed profession, has to say: "No business man or woman should allow a newspaper to go to press without his or her name and busines being mentioned somewhere in its columns. This does not mean you should have a whole half, or even a quarter page advertisement in each issue of the paper but your name and address should be mentioned if you do not use more than a two-line space.

"A stranger picking up a newspaper should be able to tell what business is represented in a town . . . it's the best possible town advertiser. The man or woman who does not advertise does an injustice to himself or herself and definitely to the town."

CARTOON ELLIE

A floorwalker, tired of his job, gave it up and joined the police force. Several months later a friend asked him how he liked being a policeman. 'Well," he replied, "the pay and the hours are good, but what I like best is that the customer is always wrong."

—o—

A woman walked into a millinery shop and pointed out a hat in the window. "That red one with the feathers and berries," she said. "Would you take it out of the window for me?" "Certainly, madam," the clerk replied. "We'd be glad to." 'Thank you very much," said the woman moving toward the exist. "The horrible thing bothers me every time I pass."

—o—

A farmer hired a hand and set him to chopping wood. In the middle of the morning the farmer went down to see how he was coming along. To his astonishment he found all of the wood chopped. Next day the farmer told the man to stack all the wood in the shed. This involved a lot of toting and the farmer figured the job would keep the man busy. But by noon he had it done. One the third day the farmer, thinking he'd give the man a light job for a change, told him to sort out the potatoes in the bin. "Put the good ones in one pile, and the doubtful ones in another, and throw out the rotten ones," said the farmer.

An hour or so later he went back to see how the job was coming. He found the man passed out cold, with virtually nothing done. After throwing water in the man's face and bringing him around the farmer demanded an explanation.

"Well," the man said wearily, "it's making them decisions that's killing me."

—o—

Woman, shaking hands with the preacher after the service: "Wonderful sermon. Everything you said applies to somebody or other I know."

—o—

A contractor out in the Northwest had been trying for months to collect an overdue bill. As a last resort, he sent a tear-jerking letter, accompanied by a snapshot of his little daughter. Under the picture he wrote, "The reason I must have the money." The prompt reply was a photo of a voluptuous blonde in a bathing suit labeled: "The reason I can't pay."

—o—

A wolf lounging in a New York hotel lobby perked up when an attractive young lady passed by. When his standard come-on, "How de do," brought nothing more than a frigid glance, he sarcasmed, "Pardon me, I thought you were my mother." "I couldn't be," she said, "I'm married."

Conscience gets a lot of credit that belongs to cold feet.

BLM Defies

(Continued from Page 1)

to five acres of desert land will be to give the applicant a choice of leasing a tract with an option to purchase after improvements have been completed or direct purchase at the BLM appraisal price.

Direct sale will also be made to individuals in groups who organize to meet county development requirements. But no action will be taken to dispose of the large number of terminated lease tracts by public auction or otherwise until the Director of the BLM has conferred with the House Committee on Interior and Insular Affairs on the problem.

Palmer said that his office will reject all small tracts applications for land where a reasonably good building site does not exist or if the site is isolated or in a dangerous flash flood location.

San Bernardino County will continue to be closed to the filing of applications until BLM field men can classify new land for small tracts and until applications now on file can be processed. Good sites that are still open in the well established small tract areas will be offered by direct sale or lease and sale to block up and complete settlement in these areas.

Palmer explained that the BLM appraises each small tract at its fair market value before it is offered for lease or sale. The fair market value of the tract is determined by finding out what similar lands in the area have recently sold for. Another point which is emphasized is that the Bureau does not sell at auction, lands under small tract application. It has been alleged that the Bureau planned to auction off some of these tracts and persons who have filed applications on the sites would lose their opportunity to acquire the sites unless they purchased them at an auction. This was never contemplated and would be contrary to the Small Tract regulations.

Palmer said he wanted to again repeat that the Bureau of Land Management is cooperating with the proper county agencies by advising them of the areas which are proposed for small tract classification and asking the county agencies for their recommendations. "We will look to the counties to pass reasonable and workable ordinances to regulate the orderly development of small tract areas. It is generally believed that the development and building requirements should be exacting for areas adjoining towns but should be more lenient in areas where the pattern is that of rural development. In counties which do not have zoning ordinances, the BLM small tract building restrictions will be enforced," Palmer said.

PLANTER PAPPY CHATTERS

By GEO. A. STINGLE

Doggone it, the other day I was washin my hands with a nice fancy kind of soap and I got so durned mad at that soap I just fired it out the window. O it smelled awful nice and looked purty but when it came to takin off sticky dirt I might as well have used cup grease and I got to thinkin of the good old soaps my Mommy used to make when I was a little shaver. Mommy made soap outa ashes and grease and lye and stuff and by gollies if you washed your hands with that soap they was shure clean. After awhile we got to usin botten soap in long bars which wasn't quite so good but it wasn't bad. About that time the soap makers got awful busy makin all kinds of soap and advertisin it all over the country. I mind about the first ad I'd seen was about Pears Soap. They tried to get everybody to say "Have you used Pears Soap this morning?" Then the soap makers got busy tryin to figger out some catchy ads. One outfit had a purty good one Livery Soap is not pure because it floats, it floats because its pure. Or maybe it was the other way around but anyway they didn't tell you that they pumped little teeny weeny bubbles of air into every cake of soap so the durn things couldn't sink. Then after awhile they all started making their soaps into powder. Gosh the wimmin shure thot that was great but purty soon some smart guy thot up this detergent stuff. Hot diggety dog, the gals shure went after them there bubbles. Bubbles, bubbles everywhere. But ding gast it they didn't tell us that that bubbly stuff would burn your hands and smart your nose and besides it would kill your trees if you throwed the suds on the garden. You know, I sometimes get to cogitatin about what them there scientiffick fellers will think up next. I betcha it will be some kind of a atomic path bizness. Every house will have a little cubby hole like a closet with two doors in it so you can walk right through the durn thing and come out the other stde as clean as a hounds tooth and you won't have to take your duds off. I reckon it would be about the same thing as havin your sins washed away at one of them there revival meetins — a sort of a dry cleanin. Yessir.

Charles Watkins Announces

(Continued from Page 1)

of the Desert of San Bernardino County.

He established the first insurance office in Yucca Valley in 1947 and has been active in that line since that time. His entrance into the real estate field came in 1952 when he opened a branch office under his brother, M. G. (Watty) Watkins. Upon Watty's death in 1954 he secured his own broker's license and has operated under his own name since then.

This office has seen a continual growth ever since its inception, and now consists of an insurance force of 5 and a real estate force of 7, including the office employees. Growth of business has necessitated several expansion moves in the past 3 years in order to keep up with the growth of the area.

Prior to coming to the hi-desert Mr. Watkins served as a training director for a vocational and technical training center with the U.S. Air Force, specializing in conference work throughout the U.S. Before going into the U.S. Air Force, he spent 18 years in the newspaper business, covering all fields in weekly and semi-weekly publications, from printer's devil to editorial work.

"MACHINE GUN KELLEY" Sez:
Horsepower was much safer when only horses had it.
We know a fellow who had a car so old that this year he wrote the state motor vehicle department requesting upper and lower plates.
Drive-In Theater: Where a guy goes to shut off his ignition so he can try out his clutch.
A golfer has one advantage over the fisherman—he doesn't have to show anything to prove it.
